

# Vision and Mission

## DEPARTMENT OF MATHEMATICS

Vision

MISSION

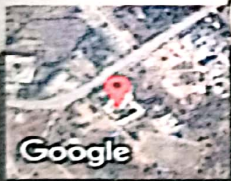

GOAL

To enhance the performance level in different fields of mathematical sciences to produce distinguished outputs at the regional level in teaching mathematics, scientific research, and constructive interaction with the community.

It is our mission to engage in the teaching and learning of mathematics that will challenge students to be independent learners and develop sound reasoning, problem solving and critical thinking skills necessary to compete in a global society.

- To create an atmosphere that encourages students and supports their efforts;
- To develop the analytical and quantitative reasoning skills of all students;
- To encourage advanced students to be creators of mathematics by introducing rigorous mathematical reasoning and by expecting them to take the intellectual risk inherent in raising questions and formulating conjectures;
- To use and maintain a variety of appropriate technological tools throughout our curriculum;
- To work with students independently or collaboratively to help them make sense of and understand mathematics;
- To promote effective teaching through attendance at workshops and conferences on teaching;
- To keep faculty involved in professional growth.
