4.2 - Library as a Learning Resource

4.2.1 - Library is automated using Integrated Library Management System (ILMS)

The library automation is the use of automatic and semi-automatic library activities as acquisition, cataloguing, and circulation. Library automation' is used to imply just the mechanization of traditional and/or manual house-keeping routines of a library. Our college established in 15 august 1983 with one post of Librarian and one post of book-lifter. Since then, there are nearly 35000 books. From this process, the library records for issue of books to student and its return to library

will be easier. From this process following may be possible:

1. Maintaining the Issue records of books.

2. Listing of books by Authors name
3. Listing of books by Publishers
4. Listing of books by Price
5. subject-wise Listing of books i.e., UGC, Book-Bank, SC/ST etc.

The library automation is the use of automatic and semi-automatic library activities as acquisition, cataloguing, and circulation. Library automation' is used to imply just the mechanization of traditional and/or manual house-keeping routines of a library. Our college established in 15 august 1983 with one post of Librarian and one post of book-lifter. Since then, there are nearly 35000 books. There is no formal software purchased and installed in the library of college. However semi-automation is in progress. The process of doing semi automation in library is being done by manual entry of books in the excel-sheet. From this process, the library records for issue of books to student and its return to library will be easier. From this process following may be possible:

1.Maintaining the Issue records of books.

2.Listing of books by Authors name 3. Listing of books by Publishers 4.Listing of books by Price 5. subject-wise Listing of books i.e., UGC, Book-Bank, SC/ST etc. 7.Receipt and Billing records may be maintained.
